

Every setback
might be
the very thing
that makes
you carry on
and fight all the harder
and become better.

Les Paul

It took Les Paul 10 years
to convince Gibson Guitar Company
to build the solid body electric guitar.
Now his name is on
one of the most popular guitars
of all time.

Les Paul — inventor of the solid-body electric guitar, multi-track recording and recording techniques that are used every day by rock stars.

Gold record recording artist.
